

Game Cast

Put Game Cast on your **home screen**.

Add it once. It opens full screen with its own icon, like any app. No App Store needed.

GO TO

gamecastapp.com/app

Open it in Safari on iPhone, Chrome on Android.

Install on iPhone or iPad

Open the link ›

Share ›

Add to Home Screen ›

Add

1

Open Game Cast in Safari

Go to gamecastapp.com/app, then tap Share at the bottom.

No Share button? Tap **⋮** first.

2

Tap Add to Home Screen

Scroll down the list to find it.

Missing? Tap Edit Actions at the bottom and add it.

3

Tap Add

Leave Open as Web App switched on.

4

Find the icon

It lands in the first open spot on your home screen.

Can't find it? Swipe down and search Game Cast.

5

Open it and sign in

Game Cast now runs full screen, like any app.

Tap Allow when asked, to get score alerts.

You're set.

Game Cast updates itself. To remove it, press and hold the icon.

On iPad? Same steps. Share is at the top right.

Troubleshooting

Quick fixes.

Opened inside another app?

Facebook, Instagram, and email apps use their own browser. Tap **Open in Safari** or **Open in Chrome**.

Add to Home Screen missing?

Tap **Edit Actions** at the bottom of the Share sheet. Private tabs hide it.

Address bar still showing?

Open as Web App was off. Delete the icon and add it again.

Asked to sign in again?

Normal the first time. The app keeps its own login.

No notifications?

Open from the icon, then check **Settings > Notifications > Game Cast**.

How do I update it?

You don't. It updates itself every time it opens.

Where you open Game Cast	Home screen icon	Browser tab
Full screen, no address bar	Yes	No
Own spot in the app switcher	Yes	No
Score and schedule notifications on iPhone	Yes	No
One tap from your home screen	Yes	No
Always the latest version	Yes	Yes
